

PRODUCT

ESD PU Tip Glove - Carbon

TECHNICAL DATASHEET

DESCRIPTION

Polyurethane (PU) Tipped Carbon Filament Gloves are ideal for use when handling or transporting devices and components that are susceptible to damage from electrostatic discharge.

While each finger has a polyurethane coating to the tip sections, the back and palm of the glove remain uncoated to provide good ventilation which helps prevent perspiration. These gloves are usually used during PC building and assembly.

FEATURES

- Dissipative carbon glove ideal for handling electronic parts
- Material: 80% Nylon and 20% Carbon (knitted with 13 Gauge)
- Colour: Natural light grey carbon liner with white coated fingertips

CUFF COLOURS
