

PRODUCT

Antimicrobial Sticky Film Roller Sheet Refills

TECHNICAL DATASHEET

DESCRIPTION

Cleanroom sticky film roller refills are specifically designed to lift and trap dust, dirt, and particles in even the most sensitive cleanroom environments. Each refill holds perforated sheets which, once contaminated, sheets are peeled off the roll to uncover a clean sheet. These sheets work effectively on floors, walls, and other surfaces within cleanroom settings.

Each sheet is manufactured from 0.0015" thick low density 100% polyethylene film laminate. The sheets are coated with a water based adhesive and antimicrobial agent ensuring a smooth 180° peel leaving no residue. Steel roller and handle not included.

FEATURES

- Antimicrobial agent providing long lasting protection against bacterial growth
- Perforated sheets for easy removal
- Plastic inner core
- Non-toxic effective cleaning for smooth surfaces

PLEASE NOTE

*180° peel adhesion testing is a method used to measure the force required to peel a flexible material (such as adhesive tape) away from a substrate at a 180-degree angle. It's a common way to evaluate the strength of an adhesive bond.

PRODUCT CODE	SIZE	SHEETS PER ROLL	PACK SIZE
600-0419	229mm (9") plastic core 1.5"	180 perforated at 5.25"	Each
600-0421	458mm (18") plastic core 3"	40 perforated at 10.25"	Each
